

# Medicare Supplement Pricing using 'Plan Finder'

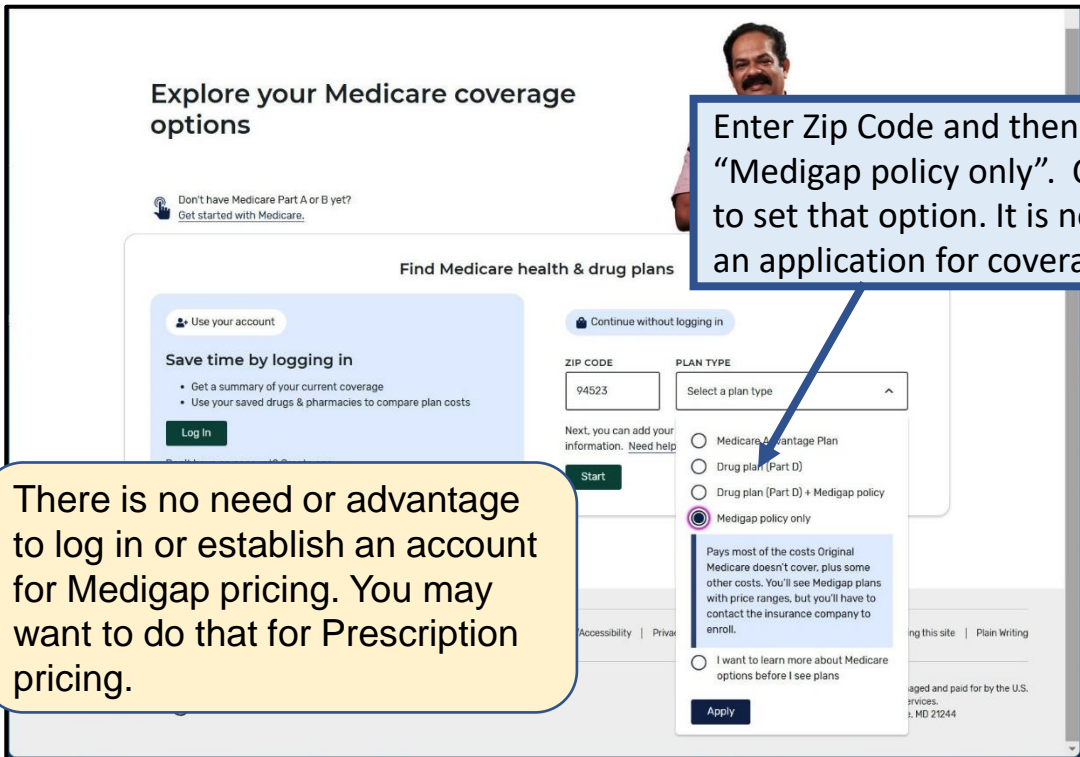

## Step by step instructions to use Medicare's database to help you determine pricing for a Supplement Plan (Medigap) in your area

Use [www.medicare.GOV](http://www.medicare.GOV) (not COM) to get to Medicare. They often change the picture.

An option to find plans is always available. Click on "Find Plans Now".

Enter Zip Code and then select "Medigap policy only". Click "Apply" to set that option. It is not to submit an application for coverage.

There is no need or advantage to log in or establish an account for Medigap pricing. You may want to do that for Prescription pricing.

**Find a Medigap policy that works for you**

In Original Medicare, you generally pay some of the costs for approved services. Medicare Supplement Insurance (**Medigap**) is extra insurance you can buy from a private company that helps pay your share of costs.

ENTER YOUR ZIP CODE

**How to buy a Medigap policy**

**Step 1** **Decide which plan you want**  
 Medigap policies are standardized, and in most states are named by letters, Plans A-N. Compare the benefits each plan helps pay for and choose a plan that covers what you need.  
[See benefits of each plan](#)

**Step 2** **Pick your policy**  
 Find policies in your area. Price is the only difference between policies with the same letter sold by different companies.

**Step 3** **Contact the company**  
 Get an official quote from the company. Prices can change at any time based on when you buy, your health condition, and more. When you're ready to buy a policy, contact the company.

Excellent instructions from Medicare. Reenter Zip Code if needed and click "Start".

The three most popular plans types in the USA for those turning 65 are G, N, and G(high deductible). Almost 99% choose one of those three plan types.
