

Medicare Parts A and B Premiums and Cost Sharing

All cost are for calendar year 2024 without any Medicare Supplement

Part A Hospital Insurance Premium

Most people pay \$0 each month for Part A because they contributed to SSA/Medicare for 40 quarters (about 10 years) either on their own or their spouse's work record. If one has between 30 and 39 quarters, they may buy into Part A for \$278 per month. If less than 30 quarters, one may buy into Part A for \$505 per month.

Hospital Stay

\$1,632 deductible for days 1-60 of each Benefit Period. A benefit period starts upon admittance to the Hospital and ends after you have been out of the Hospital or a Skilled Nursing facility for 60 consecutive days.

\$408 per day for days 61-90 each Benefit Period

\$816 per day for Lifetime Reserve Days. Lifetime Reserve Days are 60 extra days of coverage you can use in your lifetime. One is responsible for all costs for each day over 90 days once Lifetime Reserve Days are exhausted.

Skilled Nursing Facility Stay

\$0 for the first 20 days each Benefit Period.

\$204 per day for days 21-100 of each Benefit Period. One is responsible for all costs after a stay of 100 days in any Benefit Period.

Part B Outpatient Services Premium and Cost Sharing

\$174.⁷⁰ monthly premium. There is a **\$240** annual deductible where one pays the full amount of the Medicare assigned billing rate until the deductible is met. After the deductible, there is 20% coinsurance for most doctor services, outpatient therapy, mental health, and durable medical equipment. There is no maximum out of pocket limit on the co-insurance responsibility. An expensive procedure like Kidney Dialysis or Chemotherapy can result in co-insurance liability over \$10,000!

Many Preventive Procedures, Clinical Laboratory Services and Home Health Care services are fully covered by Medicare with no cost.

Blood Transfusions

Blood transfusions in an Inpatient Hospital setting are fully covered with the patient responsible for the cost of the first 3 units. In an outpatient setting, one pays 20% of the Medicare approved amount after paying the full cost of the first 3 units.

PARTS B and D Income Adjustments (IRMAA) for Higher Income Beneficiaries

An Income Related Medicare Adjustment Amount (IRMAA) is a surcharge added for one year to the monthly Medicare Part B and Part D premiums, based on yearly income. The Social Security Administration (SSA) uses income tax information from tax year 2022 (the most recent they have) to determine an IRMAA in addition to the monthly premium. Medicare Advantage plans in Contra Costa are subject to the Part D adjustment. One can always appeal this adjustment based on a 'life changing event' such as retiring, divorce, etc. That is done with SSA using form SSA-44.
